Special report: How health care reform affects seniors

Roseville, CA (October 5, 2012) -- A special report to help you understand upcoming changes to health care legislation that may affect you is now available from the *Society of Certified Senior Advisors* and Always Best Care Senior Services.

The new health care reform bill — officially, the "*Patient Protection and Affordable Care Act*" — includes a variety of provisions that impact individuals, businesses, insurance companies, health care providers and the government. While some of the provisions have already taken place, many will be phased in over the next six years. It's important to understand the approaching provisions and what they mean for you. Areas of your lives that will be most affected may include your taxes, adjustments in your existing health care coverage, access to health care coverage, access to information and requirements of employers.

Seniors are the focus of major portions of the bill, including Medicare benefits, Medicare Part D drug coverage, and the Elder Justice Act. The *Society of Certified Senior Advisors* has assembled a white paper to provide factual and helpful information about the effects of health care reform legislation for seniors. Always Best Care is proud to share this important report with you.

Always Best Care is one of the nation's leading providers of non-medical in-home care, assisted living placement services and skilled home health care. The company delivers its services through an international network of more than 200 independently owned and operated franchises and area representative offices. Always Best Care has assisted over 25,000 seniors, representing a wide range of illnesses and personal needs.
