**Always Best Care Senior Services Helps
Seniors Find Assisted Living Communities – *Free!***

Roseville, CA (August 1, 2012) — Are you an active, social person, but find it hard to get out and visit friends because of physical limitations?

Would your life be easier if you had someone to help when you needed it?

Have you been alone and fallen with no one to help you?

Have you become a prisoner in your own home?

We can change that!

Always Best Care Senior Services has partnered with select independent and assisted living communities, Alzheimer's and dementia care homes, and residential care homes (also known as board and care), to advise you of the communities and services they offer. We now have agreements with companies representing more than 2,000 communities across the United States and Canada.

An assisted living community for seniors provides care for persons who need some help with activities of daily living, yet who wish to remain as independent as possible. These communities bridge the gap between independent living and nursing homes.

Because Always Best Care is compensated by our assisted living partners, we are happy to provide our senior housing and assisted living placement services at no charge to you. With our free placement services, we match our clients with the top three or four of our assisted living partners that offer the most appropriate living options based upon your individual needs, custom screening and available budgets.

Then, we personally escort you and your families on a tour of the matched communities so you may decide which senior housing option is best for them.
